

KEITH HARING

Have you ever seen colourful or black and white drawings of little people before?

If you haven't, here are some now:

This is the work of Keith Haring, an American painter, designer and sculptor known all over the world. He began creating art by drawing on walls in the street... Have you ever seen drawings in your city or town? **We call this type of art Street or Pop Art.**

Do you want to know more about Keith Haring's story?

When he was little like you, Keith Haring loved to draw. So he decided to make it his job and to use his drawings to tell people all around the world about his ideas. His ideas are all about equality, inclusion and the environment.

Keith became famous in New York for his drawings on the streets and subways, where everyone could see them. At the time this was very different, other artists only exhibited in museums and galleries, which were less accessible.

His speciality is making lots of different, multi-coloured little people... Do you want to draw like Keith Haring? **Let's start our Keith Haring workshop.**
