The "Variations Végétales" exhibition,

The result of a collaboration between the LINEL brand and ENS AAMA: Ecole Nationale Supérieure des Arts Appliqués et des Métiers d'Art Olivier de Serres, features a selection of thirty Linel gouache creations created by students at the school under the guidance of Christophe LAQUAY RONEI, associate professor at ENS AAMA and painter.

Three classes took part in the exercise: First-year Métiers d'Art students in the Ornament section (fresco, mosaic, stained glass), first-year Applied Arts students in the Visual Identity Graphics section, and second-year students in the Events section.

Using the theme of plants, the students took notes in the field, then developed the subject in 30 x 30 cm formats, discovering and exploring the rich chromatic potential offered by LINEL extra-fine gouaches.

Did you know that Henri Matisse, the master and leader of Fauvism, loved Linel extra-fine gouache?

Today, this iconic paint inspires artists, illustrators, creators and designers the world over.

Lefranc Bourgeois is committed to its mission of transmission and support, and is pleased to present this exhibition highlighting the work of the new generation.
